

Lokesh Alli

Solapur, Maharashtra, India | +918485868884 | lokeshalli1807@gmail.com

Full Stack Web Developer skilled in using **React.js** for front-end development, and **Express.js** and **Node.js** for back-end services, along with managing **PostgreSQL** and **MongoDB** databases. Looking to leverage technical skills and work with a development team to create effective and scalable web applications.

Projects

Appwrite Blog Application

-Oct 2024

- ✓ Created a full-stack blog platform utilizing Appwrite for backend services, enabling efficient user authentication and database management.
- ✓ Implemented a responsive frontend UI with Tailwind CSS, providing a seamless user experience.
- ✓ Features to post, edit, and delete blog entries, emphasizing clean UI design and effective data handling.
- ✓ Deployed and maintained the app using Vercel, enhancing accessibility and performance.
- ✓ See repository: <https://github.com/LokeshAlli21/Appwrite-Blog>
- ✓ Project live at: <https://appwrite-blog-first-deploy.vercel.app/>

Book Notes

-Apr 2024

- ✓ Developed a book note management app using PostgreSQL for data storage.
- ✓ Built RESTful API with Express.js and Node.js for seamless CRUD functionality.
- ✓ Crafted a responsive rating stars UI using CSS for improved user experience.
- ✓ Leveraged the Open Library API for fetching book covers to enrich the user interface.
- ✓ See repository: <https://github.com/LokeshAlli21/Book-Notes>

Skills

Full Stack Development

- ✓ Front-end Technologies: HTML, CSS, JavaScript, React, Redux toolkit
- ✓ Programming Languages: C, C++, Java, Python, JavaScript (Data Structures and Algorithms)
- ✓ UI Frameworks: Bootstrap, Tailwind CSS
- ✓ Development Tools: Android Studio, Postman, Visual Studio Code
- ✓ Back-end Technologies: Node.js and Express.js
- ✓ Database Management: PostgreSQL and MongoDB
- ✓ Data Formats: XML and JSON
- ✓ APIs: REST API

Education

Dr Babasaheb Ambedkar Technological University (DBATU)

- Bachelor of Technology

Computer Engineering

-2022 to Present

- Acquired foundational knowledge in core computer science subjects.
- Developed essential soft skills, including teamwork and communication.

Maharashtra State Board of Technical Education (MSBTE)

-Diploma

Computer Engineering

-2019 to 2022

- Gained knowledge in computer fundamentals and Android development using Java.
- Learned programming languages including C, C++, Java, and Python, as well as basic data structures.

Languages

English – (Proficient)
Hindi – (Proficient)
Marathi – (Bilingual)
Telugu – (Native)
